SYNOPSIS OF CANADIAN NORTH-
WEST LAND REGULATIONS.

The sole head of a family, or any male
over 18 years, who was at the time
of the present survey, and has been
continued to be, a British subject or
subject of an allied or neutral coun-
try, may homestead land in Manitoba,
Saskatchewan or Alberta. Applicant must
appear in person at Dominion Lands
Agency at Regina, Saskatchewan. If
applicant is away from home, he may
appoint a resident of the Dominion of
Manitoba, Saskatchewan or Alberta, to
act as his agent, and the cultivation of land in each of
the years.

In certain districts a homesteader may
have an adjoining tract-section 33
pre-emption. Price \$20.00 per acre. Duties
— \$10.00 per acre. In each of three
years after securing homesteaded patent and
settling to secure title. May obtain pre-
emption patent as soon as homesteaded
patent on certain conditions.

A settler after obtaining homesteaded
patent, if he cannot secure a pre-emption,
may take a purchased homesteaded in cer-
tain districts. Price \$10.00 per acre. Must
remain on the land for three years, cultivate
to secure title and erect a house
within 1864.

Settlers of entries may count time of
employment as farm laborers in Canada
from 1877, as residence duties under
certain conditions.

When Dominion Lands are advertised
or opened for entry, returned soldiers who
have served overseas and have been hon-
orably discharged, receive one day pri-
ority in applying for entry at local Agents
Office (not not Sub-Agent). Discharge
papers must be presented to Agent.

W. W. COBY, Commissioner of the
L.R. Department, Dominion of Mani-
toba, Saskatchewan or Alberta.

Spanish Influenza

Alberta Health Bulletin

The pandemic of influenza now ra-
ving on the Atlantic seaboard has been
imported from Europe. From Spain
came the first notice of it. In April
thirty per cent of the population were
said to have been affected from it in
May. Germany was attacked in June
and July. In Great Britain the epi-
demic lasted through May, June and
July. The disease has spread rapidly
out all parts of the world, apparently.
It was reported present in Brazil
June 14. At the city of Chung King,
China, on July 27 last about one half
the population of the city was stated
to be affected. It has been reported
from the Republics of Salvador and
Peru.

The term "Spanish Influenza" was
applied to it because of the fact that
it was first noticed in Spain this year.
Children and adults in the extremities.
Several complained of pains in the
arms and legs. About two-thirds
of the patients complained of a dry
throat. The disease is believed to be similar
to that of 1889 which, starting in Nor-
thern Europe spread rapidly through
Germany, France, Spain and Great
Britain, arriving in America during
November of that year, and resulted
in each place for from one to two
months.

Symptoms
The first reports coming to England
from Spain (which appeared in The
London Times of May 21), gave the
symptoms as being high fever, vomit-
ing, pains in the chest and diarrhoea,
and made mention of the fact that
there were no fatal cases. From reports
of the epidemic as it occurred in Eng-
land the following symptoms were
found: The onset was at times sudden
at other times it was gradual, and the
patient remained at work for one or
more days before he reported ill. The
initial symptoms were in most in-
stances:

Medical investigation shows that 75
per cent of headcases are directly due
to eye strain.

It can be relieved by cor-
rectly focused and fitted glasses.

Germany's answer to President
Wilson's questions are awaited with
great anxiety in Germany. Mr. Wil-
son's reply to the German peace pro-
posals was published in the newspapers
of the United States yesterday evening.
The official Gazette says: "We have reason
to believe that the peace step which
has commenced will be continued."

fluency, headache, backache, malaise,
backache, sore throat, etc. of the
throat. The tonsils were rarely swollen,
and the glands at the angle of the
jaw not enlarged. Mental dulness and
apathy were common and in some in-
stances the patient was continuously
drowsy and slept most of the first 48
hours of his illness. In other cases
the headache, backache, or pains in the
extremities made the days unprofitable,
and the nights restless. Nearly
all the patients showed considerable
fever. In uncomplicated cases this
lasted from one to six days with an
average duration of about three days.
In complicated cases, however, it
was protracted. Convalescence
was slow, only marked by an unusual
degree of prostration and by an un-
usual exhaustion on slight exertion.
These symptoms usually passed off in
from three to five days after the tem-
perature had become normal but in a
few instances they lasted a week or
more. Without going into detail, it
may be said that the most common
sequelae observed were infection of the
lungs and pleura, particularly pleurisy
with or without fluid, empyema, peris-
taenitis and bronchial pneumonia.
It was found that the fever rose
again in some cases, but that they
were many deaths from it in Great
Britain this was accounted for by the
fact that it was a wide-spread and
not because it was such a fatal disease.

A naval medical officer giving a re-
port of the epidemic in the British
Massachusetts about September 1st
mentions the fact that it was very
severe the complications frequently
arose and that an extraordinary de-
gree of contagiousness was noted. It
attacked many of the physicians, hos-
pital attendants and nurses. He gives
the symptoms as follows: The onset
is very rapid. The patient usually
passing from an apparently well con-
dition almost to prostration within one
or two hours. There is no complaint
of sore throat at any time and no in-
itial localized symptoms. In a few
cases the patient attributes the attack
to a slight sore throat or ill feeling a
few days previously but the majority
give no such history. The fever rises
rapidly to from 101 to 105 F. The
patient usually complaining of severe
headache, general malaise, and
pains of varying severity in the
muscles and joints, especially in the
back. The frequently described de-
mentia as though he had been beaten
all over with a club. The course is
usually rapid. The patient lies in
bed in a semi stuporous condition,
drenched up with the covers pulled over
his head and neck. There is alterna-
ting chill and fever. The temperature
rises from 100 to 102 F. The pulse is
from 100 to 120. The temperature
from 101 to 105 F. A few have nausea
and vomiting. After these initial sym-
ptoms which are quite constant, a re-
mission frequently occurs in the morn-
ing of the second or third day. In a
small percentage of the cases the tem-
perature may continue normal, with
recovery. More frequently there is a
secondary rise of temperature follow-
ing the remission, accompanied by a
cough and slight bronchial cough. It
is during this period that the disease
probably is most contagious being
transmitted almost entirely by direct
contact, and by droplet infection with
in a radius of a few feet. Following
the second or third rise, the tempera-
ture in uncomplicated cases gradually re-
turns to normal within a week, but
the patient is usually still coughing
and feeling rather weak. It requires
another week of convalescence before
returning to duty is advisable and
then the patient fatigues very easily,
and shows distinct effects of the in-
fection. These have been the reason
of the short period covering this report.
From five to ten per cent of the pa-
tients in the epidemic develop a very
severe and massive broncho-pneumonia
of the ninety-five cases of pneumonia
in the hospital developing from in-
fluenza, 25 patients have died and an-
other fifteen or twenty are despera-
tely ill.

Source of Infection
The sources of infection are un-
doubtedly sermons from the nose,
throat, and lungs of cases or carriers
and the mode of transmission is by
direct or indirect conveyance of these
secretions by droplet infection, or by
means of handkerchiefs, towels, eat-
ing utensils, etc.

Treatment
Rest in bed, warmth, fresh air, abun-
dant food. Every case with fever
should be regarded as serious, and
kept in bed at least until defervescence
of the fever. Convalescence requires
careful management to avoid serious
sequelae.

The Provincial Board of Health have
declared epidemic (Spanish) influenza
and pneumonia to be notifiable dis-
eases. Reg. 1 (11) of the Regulations
of the Provincial Board of Health.
Physicians are requested to notify the
local Health Officer of their Health
District. Local Health officers are re-
quested to notify the Provincial Board
of Health daily.

PLEDGE SUPPORT
TO VICTORY LOAN**

NEWSPAPER MEN WILL GIVE THE
FULLEST PUBLICITY TO
NEW CAMPAIGN

Publicity measures in connection with the forthcoming Victory Loan were fully discussed by members of the Canadian Associated Press for Northern Alberta, in session at the Macdonald Hotel last Friday. Some twenty editors and publishers were in attendance.

The conference was held under the auspices of the Northern Alberta Press News and Feature Committee, in consultation with members of the Victory Loan executive committee for the district.

The morning session was opened by a speech from Sir Thomas White, reproduced by means of a gramophone. Several questions were brought up by the members relative to difficulties experienced last year in floating the loan.

In the afternoon, a report was read by the secretary of the Victory Loan relative to the cost of floating last year's loan. Mr. John Hulse also gave a glowing speech telling of the need of support for the coming loan, and assuring that every support be accorded the government in making the 1918 Victory loan an overwhelming success.

In the evening a banquet was staged at the Edmonton club, after which Mr. Jennings gave a brief description of his trip to the battlefields of France and through England's war organizations.

The following were in attendance: C. L. Willis, Stettler Independent; H. S. Frederick, Peace River Record; E. B. Chandler, Wainwright Star; L. D. Albertson, Chauvin Chronicle; H. G. Thunell, Viking News; V. C. Fritsch, Wainwright Times; Geo. Gordon, Ponoka Herald; Chas. A. Boulton, Rocky Mountain House Capital; W. A. Landon, Marvill Empire; A. A. P. McDowell, Dayland Press; J. B. Buchanan, Fort Saskatchewan Conservator; H. W. Bette, Hardisty Mail; S. C. Andrews, Alia Free Press; A. R. Ennis, Leduc Representative; R. J. Ennis, Stettler Herald; R. N. Williams, Peace River Standard; M. J. Hutchinson, Edmonton Bulletin; M. R. Jennings, Edmonton Journal; Paul Jewry, Edmonton Union; A. W. Coome, Edmonton Searchlight; John W. Johnston, Alliance Times.

M. R. Jennings presided over the session.

LANTERN SLIDES FOR THE INSTRUCTION OF FARMERS

Lantern slides and moving pictures will be made use of by the department of agriculture during the coming winter as a means of spreading information about up-to-date farming in Alberta. This department has secured a public scope machine and with this equipment it is proposed to arrange a series of meetings in different parts of the province at which illustrated lectures on improved live stock, crops and cultivation methods will be given by experts attached to the department staff. A number of charts are now being prepared for the purpose and it is expected that the series will begin shortly after the new year. This form of extension educational work is a new move in Alberta as applied to the raising of live stock and the growing of farm crops but the experiment is believed to have good prospects of success and usefulness.

SUFFICIENT BUTTER IN CANADA

The Canada Food Board had contemplated all the creamery butter made during October and up to November 25, to be shipped to Great Britain and her allies.

While Canadians are accustomed to two pounds of creamery butter per person per month or 3 ounces per week, per person, the people of Great Britain at the present time are confined to two ounces per week per person, and two ounces of lard over three in Canada a large proportion of climatic gains.

INCREASED ACREAGE NEXT YEAR

Every effort should be made to bring the farmers of Canada to put an increased area under the plow this fall. City men have helped with the harvest and women seem to be spared. City men must help out in cases where farmers find labor scarce for fall plowing. Men, now in cities, who have worked on farms and can handle horses, should render themselves available for this important work.

UNIVERSITY LIBRARY RECEIVES MANY NEW BOOKS

The latest slide service of the Department of Extension of the University of Alberta promises to be even more popular this winter than last. Already over 38 per cent of the notes are out on loan. Clubs or individuals wishing to avail themselves of this service should send in their applications as early as possible, and should in every case make a second and third choice in order to avoid delay and disappointment. Applications should be made to the Visual Instruction Division, Department of Extension, University of Alberta.

There are also indications that the service of the Travelling Library Division of this department will be used more extensively this year. The first edition of the Open shelf books during the month of September was nearly three times that of September, 1917. In making application for these, as for lantern slides, a second and third choice should be made.

Among the new books added during the summer to the Open shelf library the following are of special interest to students:

Competition: A Study in Human Motives, by John Harvey and others.

The New Horizon of State and Church, by W. H. P. Paunce.

This Life and the Next, by P. T. Power.

The Assurance of Immortality, by H. E. Foulke.

The Masochism of the Master, by H. E. Foulke.

The Meaning of Prayer, by H. E. Foulke.

The Church and the Man, by Donald Mackay.

A Theology for the Social Gospel, by Walter Rauschenbusch.

Treasure of Hymns, by A. I. Wells.

School and College Credit for Outside Study, by C. A. Wood.

The Leadership of Bible Study Groups, by Horne.

The Psychology of Conviction, by Joseph Jastrow.

Of special interest to teachers are the following:

The Rural Teacher and his Work, by H. W. Foght.

The Advanced Montessori Method, by Maria Montessori.

The Art of the Story-Teller, by Marie Perle.

The Vocational Education of Girls and Women, by A. H. Locke.

GRAND TRUNK PACIFIC THE POPULAR ROUTE TO PACIFIC

One can find no more agreeable, interesting, peaceful coast travellers than the combined rail and water trip over the Grand Trunk Pacific Railway and the Grand Trunk Pacific Steamship. Magnificent Rocky Mountain scenery and a fabulous sail through placid waters, meals and berth included while at sea, is surely all that can be desired to complete a trip to Vancouver, Victoria or Seattle.

If bound for California a still further bonus trip can be enjoyed, meals and berth included. It costs no more to travel via this route. For full particulars apply to any agent of the Grand Trunk Pacific.

CHOLERA SLOWLY SPREADING

Baden, Germany—Cholera is slowly spreading in Berlin despite the preventive measures taken. Seventeen cases were reported on October 8th, and 15 deaths occurred from the disease.

12,000 TONS PER DAY IS THE MUNITION OUTPUT

Col. Winston Spencer Churchill, minister of munitions, speaking at Leeds said that the output of shells in British munition plants is now 12,000 tons daily. He remarked that preparations must be made for continuing the war on a still larger scale and with still larger resources through 1919.

"We are dealing with a crafty enemy who is still in possession of enormous resources," he said. "Even if he evacuates France and Belgium that will not assure the acceptance of our indispensable terms for peace. He can then stand on his own strongly fortified frontier. We must, therefore, not slacken our output of munitions as it will be necessary for France and England to supply a portion of the armament and equipment for the American forces."

"The Americans have made a most generous effort. They are sending men to Europe far in advance of the development of their own great munitions programme. We have undertaken to supply many hundreds of guns of different calibres, including some of the most important types to the American army. Therefore, our exertions must be continued if we are to make good our promises to those who are hurrying across the Atlantic to our aid. Without this equipment we can not have the assistance of those valiant American troops who will be wanted to strike the final blow if the war should last this next summer."

URGE COMMISSION TO FIX PRICES ON DINING CARS

Ottawa.—The Railway Commission is being urged to fix prices charged on railway dining cars. The food board has regulated the menu, but there is no regulation of prices. The matter is under consideration.

TWO STEAMERS TORPEDOED WITH LOSS OF LIVES

BELIEVED 300 LIVES LOST ON THIS VESSEL ALONE BY HUN ATTACK

Dublin, Oct. 11.—It is believed that a hundred lives were lost in the sinking of the mail steamer *Lelander* by a torpedo in the Irish sea. Only about 50 were saved.

Two torpedoes were fired at the steamer. One struck near the bow, the steamer sunk within 15 minutes. The passengers, including many women and children, numbered 350 and the boat carried a crew of 70.

The report that the *Lelander* had been torpedoed on her regular voyage from Dublin to Holyhead would indicate that the German U-boats have again succeeded in getting into St. George's channel.

Hirane Maru Sunk
The Japanese steamer *Hirane Maru* of 7,925 tons gross has been torpedoed and sunk. It is feared that 300 lives were lost.

The *Hirane Maru* was outward bound for Japan and carried about 300 passengers. The vessel was torpedoed and sunk by a German submarine last Friday.

RESTRICTIONS ON GASOLINE NOT TO BE REMOVED

Ottawa.—C. W. Peterson, deputy food controller, announces that a large number of appeals have been received by the food controller to remove the ban on Sunday motoring in view of the influenza epidemic. Mr. Magrath has had this question under careful consideration, but can not see his way clear to consent to waiving even temporarily his request to the public to refrain from unnecessary use of motor cars.

SOVEREIGNS OF ALL THE GERMAN STATES WERE SUMMONED FOR REPLY

Amsterdam.—Emperor William had summoned the sovereigns of all the German federal states to Berlin, for consultation before answering President Wilson's note. Such a conference is most unique in the history of Germany.

LOCAL PARAGRAPHS

Miss Larson, who is attending normal at Canmore spent last week-end with her mother here.

Mr. John Zelic, who is selling out his farm holdings will leave shortly for St. Paul, Nebraska. He has not been in good health for some time and is making the move on that account.

Sergeant Greenwood (Ivory) who will be remembered by many as supplying pastor of the Presbyterian Church here last spring, was again a visitor in town last week-end. He occupied the pulpit last Sunday in place of Rev. Mr. White of Calgary, who was unable to be present as expected. Mr. Greenwood will have charge of the Presbyterian church at Viking during the winter months. Mrs. Greenwood will join him there shortly.

The attention of the Star has been drawn to the careless habit of some class of people in throwing broken glass bottles on the street. This is not only an ill-advised "joke" on automobile owners, but is dangerous to everyone. Whoever puts glass on the street from pure thoughtlessness should bear in mind that a good many dollars damage can be done very quickly to auto tires, which should not be in time of their own.

J. P. Jones and Mrs. Jones left for Calgary last Saturday and will be away for ten or twelve days.

R. H. Hudson, of the law office of Mustard and Day, Edmonton, was at the Mustard and Day law office in town over the holidays. He left for the city on Monday.

The ladies of Grace Methodist church are putting on an anniversary supper at the Elite theatre next Tuesday. All kinds of game and wild fowl will be served.

Dave Foster, member of 151st battalion returned veteran, arrived home Tuesday.

Frank Glen, who left here with the 151st, has returned to Alberta, and is at present in Strathcona, where it is understood he is a patient at the Convalescent home.

P. C. Haymes and wife motored up from Consort, to spend the holidays with friends in town.

The town council will take proceedings to collect all unpaid taxes after November 1st. Five per cent discount will be given for payment made on or before November 1st. Notice of this first proceedings will be found in another page.

The L. O. D. E. held a very successful whist drive and dance in the Elite Theatre last Friday evening. The hall was well-filled and everyone enjoyed themselves. The prize winners were: Ladies' Mrs. McLeod first, Miss Hazel Bunker second, Mrs. G. Plaxton first, and Mr. E. Scorsone second.

ANNOUNCEMENT
I beg to inform my customers and the general public that I will be moving to my new quarters on Main street opposite R. A. Snyder's drug store on Wednesday, 23rd inst. I take this opportunity of thanking you for your patronage and hope for a continuance of the same in my new stand.

ARE YOU EATING YOUR SHARE OF FRESH FISH

Canada is one of the great fish producers of the world, but Canadians are not eating their fish even yet. The catch in 1917 was 446,000,000 pounds or an equivalent of 94 pounds per head of population, while our consumption has been only about 49 pounds per head of population of recent years. The marketing of Atlantic and Pacific fish in interior Canada, and Canadian consumption of fish is increasing.

Mr. C. A. Davies left Tuesday for Rochester, Minn. where he is undergoing an operation at the Mayo Bros. Hospital. Mrs. Davies accompanied him to the airport returning home today.

The regular meeting of Adeline Lodge No. 10, will be held in their hall tomorrow night (Thursday). A full attendance of the degree staff is requested. Election of officers will also be held.

The Rev. H. Wilson, is this week attending a church conference in Saskatchewan and preaching the special session. He will return upon Thursday for the usual weekly intercession service at 7:30 p.m.

Dr. Mecklenburg, the eye specialist will be at the Wainwright Hotel, tomorrow, Thursday. If in need of glasses or your eyes tested don't fail to see him.

Miss Lily Shamus, of Irma, spent Friday afternoon of last week in town returning the same evening by motor.

THANKGIVING SERVICES

St. Thomas Church of England. The usual services for Harvest Thanksgiving will be held in St. Thomas Church on Sunday October 27th, and last Sunday in October. The harvest in this district was a failure this year but taken the whole Dominion the return was good. We must at all times keep alive a true spirit of thankfulness for blessings are not withheld from us. The hours of service will be 11 a.m. with holy communion, and 7:30 p.m.

FOREST FIRES CAUSE GREAT DAMAGE IN MINNESOTA STATE

DULUTH, MINN., Oct. 15.—More than 600 homes of people burned to death in the forest fires which swept over northeastern Minnesota last Saturday had been recovered today and it was expected this number would be increased by 300 and possibly 400 when the entire devastated district has been gone over.

Loss Over \$75,000,000
CHICAGO, Oct. 15.—Property damage by the forest fires in Minnesota amounts to \$75,000,000, and the insurance companies are not without from it. Computations made today by insurance men here. Their estimate does not include the standing timber and the other property which was destroyed which was uninsured and the loss of crops in insurance companies is the heaviest since the last disastrous fire. The loss to fire companies will be greatest. It was said on the large lumber properties that the war-time values are high and on which several of the risk concerns carried lines of insurance in excess of \$1,000,000.

Towns Destroyed
Twenty-one towns were destroyed Saturday and Sunday. The towns partially or totally destroyed are: Cloquet, Moose Lake, Kettle River, Lutsy, Lake Umbagog, Fire Corners, Harvey Grant Lake Maple Grove, Twier, Harman, Mathews, Alton, Lake Umbagog, Fire Corners, Brookston, Brewster, Pine Lake and Pinehill.

MAY CONTINUE DAYLIGHT SAVING IN THIS COUNTRY

Ottawa—Should the bill passed by the United States senate providing for the continuance in force of the daylight saving law after October 27 become law, it is practically certain that the Dominion government will take similar action.

The United States bill is designed to effect economy of fuel and expenditure of the inconvenience that would result from a difference in time in the two countries. Canada has adopted practically all fuel conservation measures made effective in the United States.

CHURCH CHIMES
